Notification Center

OpsCenter for notifications/ incident response handling

Secure AWS Account Mailboxes

Dedicated secure mail domain for AWS accounts

What we *provide*

The **superwerker Quickstart** is a free, open-source solution that allows you to set up a **secure** multi-account AWS environment in just a few clicks. It is built by AWS Advanced Partners **superluminar** and **kreuzwerker** who have decades of experience automating the setup up of AWS cloud environments.

superwerker lets you **focus on your business**. Start-ups and small-to-medium businesses can especially profit when time-to-market and financial aspects are concerns. You can funnel resources away from setup and maintenance tasks and concentrate on providing great services.

Trusted Services by

superwerker

custom-built

- ! Upfront costs
- ! Delayed start due to setup time
- ! Recurring maintenance efforts
- ! Limited single case solution
- ! Potential security issues
- ! Maintenance costs
